# WHY JOIN ACTING CLASSES?

## TO BECOME "self-smart," "people-smart," AND "word-smart"

- **"Self-smart"**: when we nourish students' self-smart intelligence, they discover what feelings are, and how to identify feelings within themselves. **Our Acting Classes provide positive reinforcement of students' emotions, and strongly encourage individuality.** As students become more aware of their own feelings, they also develop the ability to empathize with others.
- **"People-smart"**: Our Acting Classes build social skills and break down social inhibitions, as they encourage students to interact with each other through role play. Focusing on development of the students' people-smart intelligence, our Acting program also teaches students the importance of working as a team. Acting students naturally acquire collaboration skills as well as the ability to obey rules and follow direction.
- **"Word-smart"**: Acting is about communication. Students in the program develop the art and all-important life skill of expressing themselves and sharing their thoughts and feelings with others. As part of the learning experience, students explore forms of verbal and non-verbal communication (body language). Well developed communication skills not only inspire intellectual curiosity but also provide the tools for non-violent conflict resolution.

### Storylines & Role Play

Role playing of characters expands the mind and improves students' ability to think on their feet.

### Becoming a Leader

Students dedicated to the art of Acting and practicing it consistently develop certain skills, behaviors, and qualities of effective leaders. These include excellent communication skills, public speaking skills, personal confidence, and awareness of one's own feelings and those of others
